Psychologist

Preparing for Your Appointment

Please arrive on time so that testing can be as comprehensive as necessary. Also, please complete the history forms and behavior rating scales and bring these forms along with you to the appointment.

An initial meeting with the parent(s) will take place to review history for the child. Parents are invited to sit in the waiting room throughout the session. For an all day session, a break is planned for lunch where you are free to take your child outside the building for a one-hour period. Parents could then return to the office with the child for the remainder of the evaluation day. Testing should be completed by the end of the day.

Please send in several (3-4) snacks and drinks for your child to eat/drink during break times throughout the day.

Please make sure your child is well-rested and has a good breakfast.

Please send glasses with your child, if appropriate.

Please bring along any additional educational or medical information (ie: prior testing, yearly academic testing, IEP's etc.) you may have.
